

Leanne Van Niekerk Interiors

Creating dynamic interior design solutions from inception to completion

LEANNE VAN NIEKERK
OWNER

The company's passion for luxury design ensures sophisticated, warm and timeless interiors. Whether you are looking to build a home from the ground up or restyle a room in your current home, Leanne Van Niekerk Interiors takes great care in creating well-balanced, polished spaces on time and on budget.

I have always loved interiors and design but it was only when we renovated our home in 2013 that I realised how passionate I am about it. Then, in 2016, we broke ground to build our dream home. It was a two-year project that I was heavily involved in and it was better than any classroom education I could've ever imagined. The more I did, the more I learnt. The more I learnt, the more I loved it. I was so inspired by that experience, I went on to study interior design properly. **I always used to say "style over comfort" when it came to interiors** but I learnt very quickly that balance, form and function are extremely important. I love to put spaces together that are visually pleasing but also practical. Your home needs to be lived in and used and therefore needs to be functional while still being beautiful.

I love creating a space that is ultimately beautiful, supremely functional and a true reflection of each client's needs and aspirations.

I would describe my style as modern. I love clean, crisp lines, very little clutter and a simple colour palette (mostly made up of whites and neutrals) with a mix of natural materials like metal and glass.

I believe it's important to identify your own personal style before you start looking or meeting with designers, as this will help you select a designer that is best suited to you. It is vital to find just the right match.

"I love to put spaces together that are visually pleasing but also practical."

A good designer has his or her own ideas and styles, but the best designer will be open to any suggestion, concern or thought you have and will create a space that suits you more than them.

I always try to include elements of luxury aesthetics, muted colour palettes, symmetry, clean lines, and very little clutter in all of my designs.
